

Summer Camp

We offer innovative, fun-filled achievement Educational Programs that will help your child improve his or her ability to listen, focus, read, write, remember, and interact with peers.

Montessori Life Skills Sensorial lessons help children with daily life skills, play skills, motor skills, hand-eye-coordination, as well as stimulating the sense of hearing, touch and smell, thus promoting cognitive development.

Social Thinking Groups Cutting-edge curriculum that helps those ages 6 to 13 with social cognitive difficulties.

Fast ForWord® Develops and strengthens memory, attention, processing rate, and sequencing—the cognitive skills essential for reading intervention program success. The strengthening of these skills results in a wide range of improved critical language and reading skills such as phonological awareness, phonemic awareness, fluency, vocabulary, comprehension, decoding, working memory, syntax, grammar, and other skills necessary to learn how to read or to become a better reader.

BrainBuilder® Scientifically designed, computer-based Brain Fitness program that can improve memory, attention and brain speed.

The Listening Program® Music-based auditory intervention program that improves central auditory processing skills, communication / language skills, helps attention problems, and memory skills.

Visualizing and Verbalizing® Improves reading comprehension, oral expression and oral comprehension.

Interactive Metronome Challenges the student to synchronize hand and foot exercises through a precise tone heard through headphones.

Other programs available: Cogmed Working Memory Training, Dance therapy, Taichi, and Qigong.

Tutoring

Specific programs impart new approaches to learning, designed to last a lifetime, that include skills such as:

Organizational Skills
Homework Management

Study Skills
Note-taking

Montessori Achievement Center for Learning Needs (Grade 1 – 8)

Selective-Integration Environment™ to promote Academic Success

Our Elementary and Middle School is a Satellite Center of the Montessori School of North Miami, offering educational programs and therapy as part of the daily curriculum for children with learning needs in a Selective-Integration Environment™. The educational program is designed specifically for your child using a group of research-based solutions to address your child's specific learning problems.

In a Selective-Integration Environment™, students are in a classroom free of distractions, receiving an individualized education, which helps them accelerate their learning process and academic success. In addition, the students participate in the school community in "Peer Learning and Teaching", where students learn from and with each other in ways that are mutually beneficial and involve sharing knowledge, and ideas; thus obtaining the benefits of an inclusive environment.

Research-based neurocognitive interventions to promote academic success form part of the daily curriculum

Evaluations

The purpose of the evaluation is to identify the student's strengths and weaknesses. This evaluation is utilized to customize an individual educational program addressing the learning needs of each student.

The evaluation may look at cognitive, behavioral, physical, and developmental factors, as well as other areas. A full evaluation must be done before the initial provision of any special education and at the end of the year. The year-end evaluation allows us to establish the progress that each student has made during the year and to modify the student's educational program for the following year.

We serve children with:

- Poor Grades
- Learning Disabilities
- Dyslexia
- Dysgraphia
- Dyscalculia
- Central Auditory Processing Disorder (C/APD)
- AD/HD
- PDD-NOS / Autism Spectrum / Asperger's
- Non-Verbal Learning Disability
- Memory Impairments
- Sensory Integration Dysfunction
- Speech and Language Delays
- Other developmental delays and disorders that slow or otherwise hinder normal educational development

INTEGRATION

SELECTIVE

ENVIRONMENT™

Educators

Our Special Ed teachers are certified in the Montessori Method. Teachers work closely with parents to inform them of their child's progress and suggest techniques to promote learning at home. Our focus is to target the student's entire learning system, not just the surface skills.

Our teachers are trained to use computers with synthesized speech, interactive educational software programs, and audio tapes to assist the students in maximizing their learning experience.

Therapy offered by professionals in the school or at their offices:

- Speech Therapy
- Occupational Therapy
- Physical Therapy
- Psychological Testing
- Behavior Intervention
- Social Skills Groups
- Applied Behavior Analysis (ABA)
- Sensory Integration
- Neural Net

McKay and other scholarships accepted
